

Psytest Builder

BUILD YOUR OWN TEST

NEW

Psytest Builder is a brand new tool that integrates modern technology for a whole new approach to testing. With Psytest Builder, you can easily build your own customized test with ready-to-use building blocks, i.e. scales from our classic, well-tested methods, as well as newly-developed, psychometrically-proven standardized scales that measure new and exciting areas of interest in the contemporary workplace.

- ✓ Customize your **own test** with **ready-to-use building blocks**
- ✓ **Test only what is relevant** – you decide!
- ✓ **Name the test** and apply your organisation's logo
- ✓ The test result is **clearly presented in a profile** that is quickly and easily interpreted with the help of our manual
- ✓ **Pay-per-scale** – you pay only for the scales you need in the test

Get started quickly!

Conditions: Psytest Builder is available to those with any of the following qualifications: a bachelor's degree or higher in psychology, successful completion of Psytest's certification course, certification in another test method by a reputable test provider or a BPS Qualification in Test Use (or another similar qualification). There is no licensing fee, and you pay only for the scales you need in the test. Minimum order: €600/year (150 credits). Every 12 months, we add 150 credits to your account and bill for them. The service continues until it is terminated. Unused credits from previous years do not expire. All prices exclude VAT.

New, updated scales – measure exciting new areas

New, updated scales to measure exciting new areas of interest in the contemporary workplace will be added as they become available. They can be used by building your own unique tests with Psytest Builder and can be combined with scales from the BP Basic Profile and the LSI Leadership Style Inventory.

Some examples of new scales:

- **Need scales** – Need for Structure, Need for Support and Need for Variation
- **Values, principles, and attitudes** – Level requirements, Work Orientation, Tolerance, and Helpfulness
- **Personality scales** – Conflict avoidance
